

COMPOSITION :

Each 1 KG contains :

Dextrose	585,000 mg
Sodium Chloride	105,000 mg
Potassium Chloride	50,000 mg
Sodium Bicarbonate.....	150,000 mg
Calcium Acetate	100,000 mg
Vitamin C	10,000 mg

VITAVET BROLYTE - 1KG

**WATER SOLUBLE POWDER
FOR ORAL ADMINISTRATION**

INDICATIONS:

Maintain Electrolyte Balance: Helps restore the proper balance of sodium, potassium, and chloride in the body fluids of broilers, especially during periods of stress or illness.
Prevent Dehydration: Provides fluids and electrolytes to prevent dehydration in broilers experiencing diarrhea, heat stress, or reduced water intake.
Support Recovery: Aids in the recovery of broilers from diseases, vaccinations, or other stressful conditions that can deplete electrolyte levels.

BENEFITS:

Maintains Acid-Base Balance: Electrolytes help regulate the pH of body fluids, preventing acidosis or alkalosis.
Supports Nerve and Muscle Function: Sodium, potassium, and chloride are essential for proper nerve impulse transmission and muscle contraction.
Enhances Water Regulation: Electrolytes help maintain the proper balance of fluids in the body, preventing dehydration or excess water retention.
Improves Immune Function: Electrolyte imbalances can weaken the immune system, making birds more susceptible to diseases.
Maintaining proper electrolyte levels supports overall immune health.
Promotes Growth and Production: Broilers with optimal electrolyte balance tend to have better growth rates, feed conversion, and egg production.

DOSAGE AND ADMINISTRATION:

Calves, Lambs and Kids :
Twice daily: 5 -10 gram daily for 3-5 days.

Poultry : 1 kg per 1000 liter drinking water for 3-5 days

CONTRAINDICATIONS: None.

WITHDRAWAL PERIOD:

Calves, Lambs and Kids: Meat: 0 days.
Poultry: Meat: 0 days.
 Egg: 0 days.

Keep it in the original packing below 25°C

USED FOR

Horses, cattle, sheep, goats, poultry
