VITAVET ULTRACAL

SUSPENSION CALCIUM FORTIFIED WITH VITAMIN B12, VITAMIN D3, VITAMIN K3, & MAGNESIUM **for Oral Administration**

INDICATIONS:

VITAVET ULTRACAL is a liquid calcium feed supplement fortified with Vitamin D3, Vitamin B12 Magnesium and Vitamin K3.

VITAVET ULTRACAL favours better absorption of calcium and phosphorus from the gut.

Vitamin B12 plays a major role in protein, carbohydrate and fat metabolism.

Vitamin D3 facilitates calcium absorption and supports bone health.

Vitamin K3 aids in calcium utilization and is vital for blood clotting.

Both play distinct roles in calcium metabolism and overall well-being, ensuring calcium is absorbed and utilized effectively. Proper intake is essential for bone-egg health and overall health.

VITAVET ULTRACAL Used for animal in following case For large and small Animals :

Hypocalcemic disorders management. Support during pregnancy and lactation. Benefits in the pre and post-deworming period. Improved overall health. Prevention of milk fever and mastitis.

Promotion of healthy tissues and strong bones.

Vitality and better health. Prevention of age-related dietary insufficiencies. Correction of nutritional deficiencies.

For Poultry: Hypocalcemic disorders management. Increased egg production. Lactogenic and galactagogue action for egg-laying birds. Provision of organic calcium and vitamin D3. Improved eggshell quality. Reduced calcium deficiency
